The how and why of long-term deposit bonds

Let your clients think ahead

Save thousands: Allow your client's money to work harder for them.

Money back: Give your clients a market-leading rebate policy.

Low fees: One-off fee paid only when ready to secure the property.

Long-lasting: Available for off-the-plan and investment purchases.

How to qualify

Your client must own existing property to qualify.

They must have equity of:

- 3 x the 10% deposit amount for bonds from 7-24 months
- 4 x the 10% deposit amount for bonds from 25-36 months
- 5 x the 10% deposit amount for bonds from 37-66 months

Long-term savings

Whether it's earning in their high-interest savings account, offset, or other investments, your clients could save thousands by buying with a deposit bond:

Purchase Price	\$600,000	\$1,200,000	\$1,800,000	\$2,400,000
10% Deposit	\$60,000	\$120,000	\$180,000	\$240,000
Deposit Power Fee (4-Year Bond)	\$7,680	\$15,360	\$23,040	\$30,720
Interest Saved in Offset (4-Years)	\$16,560	\$33,120	\$49,680	\$66,240
Customer Savings	\$8,880	\$17,760	\$26,640	\$35,520
Interest Earned in Savings Account (4-Years)	\$15,625	\$31,250	\$46,875	\$62,500
Customer Savings	\$7,945	\$15,890	\$23,835	\$31,780

Rates used in the calculations above are an approximate market average for current home loan (6.9% p.a.) and savings account interest rates (5.8% p.a.). No tax implications taken into consideration.
